What a dispatcher sees

John Schwoyer
Airline Dispatchers Federation
F/PAW – NBAA October 21, 2010
Atlanta, Georgia
Tools and support items we as dispatchers use:

- Flight Planning Software
- Communication systems
- SWIM/CTOPS
- ATCSCC Telcon
- Operator Specific Tracking Software
- Operations Specs
- NOAA
- PIREPS
- Aircraft Situation Display
- OIS/ FAA Secure Tools
- CDM
NextGen Objectives

John Schwoyer
Airline Dispatchers Federation
F/PAW – NBAA October 21, 2010
Atlanta, Georgia
We use these tools to prevent situations like this from occurring.
• We thank the NBAA for supporting groups like the “Friends and Partners in Aviation Weather.”

• Regardless of the types of operation the issues we as dispatchers face are the same the membership of the NBAA face daily.

• Together alongside with the Air Traffic Control System we need to maintain a “SINGLE LEVEL OF SAFETY.”
